The background features three stylized human figures in blue, yellow, and red, with their arms raised, set against a white background with faint, larger versions of the same figures.

why HTC?

Big Dreams, Made Easy

The lower green part of the logo is called a sepal. The sepal plays an important role in the support and nourishment of the bud.

The Hardayalites in the logo are postured in raised arms to give a Hardayalite attitude of individual-freedom, Happiness, Strength and the Confidence to face all the challenges of the world.

Sepal also provides the needed protection to the bud before blossoming. The three H's above the sepal signify the blossomed petals of a flower. Here the petals 'H' are shaped in the human form a Hardayalite.

Hardayal Ice and Cold Storage was started in 1986 with total capacity of 1 Lakh in 1987. Hardayal Group has grown immensely since then by building more cold storages, rice mill, construction company, schools, colleges and Hardayal Milk Products (p) Ltd. Now they have entered Higher Technical education with an Integrated campus, and there on to a Medical & Technical University.

We believe that an effective source of Technical manpower for nation and to contribute to the growth of the Nation and to contribute to the growth of the Nation by constantly upgrading the quality of Technical Education by meeting the challenging needs of the twenty first century and effectively coordinating

Hardayal Tech Campus :

Higher education serves several important functions in the society, the most important being production of knowledgeable individuals who will contribute to the society. However, many of the Indian higher educational institutions do not fulfil this purpose. The demands of skilled and specialised manpower from the industry are not being met as majority of graduates lack the necessary skill sets required by the industry.

In recent years, a major concern of higher education planners and academics, the world over, has been linking higher educational institutions and other research institutions with industries. Universities can enhance the value of products in the form of knowledge, industry can augment the higher educational institution's value in the form of funds.

अमर उजाला आगरा | मंगलवार | 26 जुलाई 2011

प्रदेश में 7 नए तकनीकी कॉलेजों को मंजूरी

लखनऊ (ब्यूरो)। राज्य सरकार ने निजी क्षेत्र में खुलने वाले 7 और नए इंजीनियरिंग व मैनेजमेंट कॉलेजों को मंजूरी दे दी है। प्राविधिक शिक्षा विभाग ने इन सातों कॉलेजों को संबद्धता प्रदान करते हुए शासनादेश जारी कर दिया है। इन सातों नए कॉलेजों में कुल 2400 सीटें हैं। ये सभी सीटें इसी साल काउंसलिंग में शामिल की जाएंगी। इस संबंध में गौतमबुद्ध प्राविधिक विश्वविद्यालय लखनऊ और महामाया प्राविधिक विश्वविद्यालय नोएडा के कुलसचिवों को सूचना भेज दी गई है। प्रदेश में मौजूदा समय 708 इंजीनियरिंग और मैनेजमेंट कॉलेज हैं। इनमें करीब 1 लाख 72 हजार सीटें हैं। हरदयाल टेक्निकल कैम्पस मथुरा में इंजीनियरिंग की 300, बीआर्क की 120 व एमबीए की 120 सीटें हैं।

Message from the Secretary's Desk...

Dear Students!

It gives me immense pleasure to learn that Hardayal Technical Campus (HTC) is on verge of publishing maiden issue of its Campus magazine "CampBUZZ". The magazine will serve as a mirror reflecting various achievements, aspirations and initiatives of the Campus. HTC aspires to SOAR UP, scaling great peaks in its quest for EXCELLENCE by imparting human, intellectual, spiritual and moral formation to it's students, faculty and staff.

To respond effectively and efficiently to the pressing needs of today's society, we focus on an educational endeavours viz literary creativity. It revolves around equipping our students with such qualities of head and heart that they confidently plunge into any field of activity offering unparalleled and unprecedented challenge. The effort will be socially USEFUL, intellectually ELEVATING and spiritually ENNOBLING.

In a world where everything is measured by the yardstick of success, we train our students to think logically, systematically and analytically. The outcome will assist the budding professionals to confront economic, social, political and cultural changes arising from globalization comfortably, thereby, they may move towards their goals with focused VISION.

May the QUALITY EDUCATION we impart to our students ENLIGHTEN their minds and ENTHUSE their hearts towards always AIMING HIGH--SEMPER SURSUM. I am confident, the journey setout will prove positive, progressive and pragmatic, thereby, an enriching, enabling and exciting experience.

May God Bless You. God Speed.

Message from the Director's Desk...

Dear Students!

Heartiest Congratulations for choosing Hardayal Technical Campus for shaping your career. We welcome you into our fold with great pride observing your keen interest to pursue technical education. It is a matter of great pleasure that your endeavour corresponds to our vision which is to enhance student potential for achievement in their chosen field of profession.

With the above features in mind, our faculty and staff has been dedicated to the provision of quality training courses and programmes, and to mentor our students towards their future success. We are committed to provide individual attention, world class quality education and take care of character building.

It is our endeavour to maintain the eminence by advancing all aspect of technical education with the collateral arts and science. We are developing partnerships with institutions outside India which involves joint programme planning and sharing of information resources and materials, linkage of communities of practice and interest groups across border.

We will ensure adding value beyond the curriculum and achieve building connectivity around the nation. Our aim is to have continuous pursuit for excellence through Quality education tapped from national and international resources. By programmed evaluation of knowledge accumulated, with strong ethical and moral background, we are confident that our continuous review and renewal system will lead to quality output.

- In order to realize our dream described above, I would like you to:
- Think big--Ahead of boundaries.
 - Dream --Beyond reality.
 - Pursue Present--Forget past, don't bother future.
 - Possess Passion--Progress vehemently.
 - Be smart --Not hardworking.
 - Have a role model--Walk in his/her foot steps.
 - Do it now--Don't leave for tomorrow.
 - Succeed the failure--Don't fail the success.

I am sure, with clear vision, well defined mission, correctly crafted objectives, every goal/aim will not only be achievable but sustainable and maintainable.

May God Bless You!

Dr K K Malviya, (Director Academics)

A Touching life story

A young man was getting ready to graduate college. For many months he had admired a beautiful sports car in a dealer's showroom, and knowing his father could well afford it, he told him that was all he wanted. As Graduation Day approached, the young man awaited signs that his father had purchased the car. Finally, on the morning of his graduation his father called him into his private study. His father told him how proud he was to have such a fine son, and told him how much he loved him. He handed his son a beautiful wrapped gift box.

Curious, but somewhat disappointed the young man opened the box and found a lovely, leather-bound Bible. Anggrily, he raised his voice at his father and said, "With all your money you give me a Bible?" and stormed out of the house, leaving the holy book.

Many years passed and the young man was very successful in business. He had a beautiful home and wonderful family, but realized his father was very old, and thought perhaps he should go to him. He had not seen him since that graduation day. Before he could make arrangements, he received a telegram telling him his father had passed away, and willed all of his possessions to his son. He needed to come home immediately and take care things.

When he arrived at his father's house, sudden sadness and regret filled his heart. He began to search his father's important papers and saw the still new Bible, just as he had left it years ago. With tears, he opened the Bible and began to turn the pages. As he read those words, a car key dropped from an envelope taped behind the Bible. It had a tag with the dealer's name, the same dealer who had the sports car he had desired. On the tag was the date of his graduation, and the words...PAID IN FULL.

How many times do we miss God's blessings because they are not packaged as we expected?
Jitendra Singh (1st Sem B.Tech Civil)

Corruption In Today's World

Corruption is today a world-wide phenomenon. In our own country some people in high positions have been charged for it. A corrupt person is termed immoral, dishonest and unscrupulous in his dealings. His disregard for honesty, righteousness and truth results in his alienation from society. He is treated with contempt. But as erosion of values leads to decadence, remedies for the social malaise remain elusive, and so no amount of contempt can eradicate corruption which is a symptom of decadence.

Corruption is the most virulent when crises everywhere threaten the very existence of the society and the faith in life is shaken. It has always been there like the leech, but when the system grows weaker and the boat founders, it gets bolder and drains its victims of the last drops of their blood.

One would say the corruption in India has an ancient lineage; it is sanctified by tradition. The author of the Arthashastra made some remarks on government officials of his time which are relevant even today. "Just as it is impossible not to taste the honey or the poison that finds itself at the tip of the tongue, so it is impossible for a government servant not to eat up at least a bit of the king's revenue. These in the postwar world became only bolder while eating up government money and accepting bribes.

Today, when India is free, these officials representing all government departments are very close to the most corrupt businessmen who are too unscrupulous to let any opportunity of amassing profits slip. This collusion broadens the base of the vicious circle and corruption spreads 'like wild fire to engulf the entire society. The political and social guardians depend only too much on the richer communities and they took indulgently on while these communities hold the entire society and the government to ransom.

Corruption starts at the top and percolates down to the whole society. Such corruption cannot be confined to the towns alone. It is as widespread in the villages where the dishonest officials and the traders carry the germs of the disease. The tyranny of confusion and price rules the land and the people are helpless victims of corruption everywhere.

Determination

In 1883, a creative engineer named John Roebling was inspired by an idea to build a spectacular bridge connecting New York with the Long Island. However bridge building experts throughout the world thought that this was an impossible feat and told Roebling to forget the idea. It just could not be done. It was not practical. It had never been done before.

Roebling could not ignore the vision he had in his mind of this bridge. He thought about it all the time and he knew deep in his heart that it could be done. He just had to share the dream with someone else. After much discussion and persuasion he managed to convince his son Washington, an up and coming engineer, that the bridge in fact could be built.

Working together for the first time, the father and son developed concepts of how it could be accomplished and how the obstacles could be overcome. With great excitement and inspiration, and the headiness of a wild challenge before them, they hired their crew and began to build their dream bridge.

The project started well, but when it was only a few months underway a tragic accident on the site took the life of John Roebling. Washington was injured and left with a certain amount of brain damage, which resulted in him not being able to walk or talk or even move.

"We told them so."
"Crazy men and their crazy dreams."
"It's foolish to chase wild visions."

Everyone had a negative comment to make and felt that the project should be scrapped since the Roebblings were the only ones who knew how the bridge could be built. In spite of his handicap Washington was never discouraged and still had a burning desire to complete the bridge and his mind was still as sharp as ever.

He tried to inspire and pass on his enthusiasm to some of his friends, but they were too daunted by the task. As he lay on his bed in his hospital room, with the sunlight streaming through the windows, a gentle breeze blew the flimsy white curtains apart and he was able to see the sky and the tops of the trees outside for just a moment.

It seemed that there was a message for him not to give up. Suddenly an idea hit him. All he could do was move one finger and he decided to make the best use of it. By moving this, he slowly developed a code of communication with his wife.

He touched his wife's arm with that finger, indicating to her that he wanted her to call the engineers again. Then he used the same method of tapping her arm to tell the engineers what to do. It seemed foolish but the project was under way again.

For 13 years Washington tapped out his instructions with his finger on his wife's arm, until the bridge was finally completed. Today the spectacular Brooklyn Bridge stands in all its glory as a tribute to the triumph of one man's indomitable spirit and his determination not to be defeated by circumstances. It is also a tribute to the engineers and their team work, and to their faith in a man who was considered mad by half the world. It stands too as a tangible monument to the love and devotion of his wife who for 13 long years patiently decoded the messages of her husband and told the engineers what to do.

Perhaps this is one of the best examples of a never-say-die attitude that overcomes a terrible physical handicap and achieves an impossible goal. Often when we face obstacles in our day-to-day life, our hurdles seem very small in comparison to what many others have to face. The Brooklyn Bridge shows us that dreams that seem impossible can be realised with determination and persistence, no matter what the odds are. Even the most distant dream can be realized with determination and persistence.

Grandma and Computer

The computer swallowed grandma, Yes, honestly it's true. She pressed "control" and "enter" And disappeared from view.

It devoured her completely, The thought just makes me squirm. She must have caught a virus Or been eaten by a worm.

I've searched through the recycle bin and files of every kind; I've even used the Internet, but nothing did I find.

In desperation, I asked Jeeves My searches to refine. The reply from him was negative, not a thing was found "online".

So, if inside your "Inbox", My Grandma you should see, please "Copy", "Scan" and "Paste" her And send her back to me!

सारी दुनिया का जो मालिक

इस दुनिया से दूर कहीं, अंधार में है जो साया सारी दुनिया का जो मालिक अब हमें देखकर हैसाय सोचे मन में मेने तो, इंसान बनना वा जर ने, दया, धैर, साबुकी को ही, जब वक्त वा इतने मने वक्त है फिर कबो सोच में, समझिये वे जने हवा में कबो पीर पही ले पाया है, वेर से जब से चाले में।

कबो येन कि इक - इक रात को, पन - पन है वे तरसा, सारी दुनिया का जो मालिक अब हमें देखकर हैसाय।

नाच, नाच, पागु कि पावतन कबो अलरा-अलरा सब जाले में कबो एक पंजे है कबो रा रा गी को में कबो।

कुछ लोगो के पुरवो में, वे दुनिया अब तक जिता है। जो कुछ गीतानो के कबो में, वे धरती अब सार्जिया है।

कबो पीर पाव से बुरा, जब ईश्वर का, हर एक मन में बसा सारी दुनिया का जो मालिक अब हमें देखकर हैसाय।

अने रहने कि चाह में, कबो दूर ले पाव जवनी में, पानी के पीरें माना-नाच कर, कबो दूर है पीरें सवने से।

कदर, पुरा का इतना का, जो जाल कात और खीर, कबो पाव के इस जल में, इंसान को दैस वेरा।

दिलका चाहे बकना जने, उल्ला अवर कला, इस दुनिया से दूर कहीं अंधार में है जो साया।

CampBUZZ

ENSURING EVENTS FOR THE MONTH OF NOVEMBER 2011 AT THE CAMPUS

1ST BIOGRAPHY PRESENTATION CONTEST

A Presentation contest will be conducted on the lives of renowned scientists, architects, engineers and managers. Students of all the schools will be the participants and the winners will be awarded.

3RD OUTBOUND LEARNING PROGRAMME

This programme proposes exposure of students out of comfort zone of their normal classroom environment. It involves moving students out of doors, participate in some specially designed games and activities, thereby, enrich and enhance students persona enabling them to get compatible with industry expectations. Outbound Learning Programme is being organized by CRC (T&P) for all students of Campus at National Bird Sanctuary, Bharatpur.

4TH A PRESENTATION ON LEADERSHIP

will be conducted by Prof. H.L. Verma Director CRC (T&P) What is the importance of Leadership in the lives of each and every individual shall be discussed in detail and how can we develop the leadership skills will also be focused on.

5TH A GUEST LECTURE ON MOTIVATION

will be delivered by Mr. Mahesh Khandelwal CMD of Khandelwal Cables Ltd. Motivation is literally the desire to do things. It's the crucial element in setting and attaining goals—and research shows you can influence your own levels of motivation and self control. The lecture will be organized by CRC, Training and Placement Dept.

14TH A PRESENTATION ON MEMORY ENHANCEMENT

will be conducted by Dr. Devesh Agarwal Asst. Prof. School of Management. Lack of focus and concentration among students is not uncommon. This too a large extent is due to the playful nature of children, distraction by television or computer games or the Internet. Lack of interest in a subject can be another reason. How can we improve this aptitude, this will be focused in this presentation.

17TH TO 21ST THE UNIVERSITY TESTS WILL BE CONDUCTED IN ALL THE THREE SCHOOLS SIMULTANEOUSLY.

THE WAVES OF LIFE

Dreams ride the waves of life. When they get to shore they break, unless caught by a surfer, only then are they brought into reality. We are all surfers on the waves of life. We choose which waves we ride and which waves pass us. I recently got up some new prints in my home, one of which is a photo of a huge, nearly perfect, barrel wave breaking. It got me thinking about how a surfing analogy can provide some insight into how we choose to live our lives...

We are the instigators of our dreams. We create the reality we desire, by acting upon our inspirations. The dreams that we have relate directly to our goals. We may not always get what we want, but when the problem lies just in obtaining what we want, but in finally deciding what opportunities to follow.

The waves represent opportunities we can choose to follow. We can't ride every wave, even though we might like to. On the other hand, we can paddle around being extremely selective, in the hope of finding that one elusive wave we ride (which may never come). Or we can get out there, take some reasonable risks (which may never come), and then take risks enabling us to experience new things. We may make a few mistakes, fall off our boards and even get "wiped out", but without taking any risks at all we cannot learn and grow. The wipe outs or mistakes allow us to reflect. They help us to identify changes we need to make so we can advance. But if we riddle around aimlessly without taking any risks, we will never fully experience all of the dimensions of living.

We may sometimes try to ride waves that we aren't yet ready to tackle. The wave just behind or in front may have been a better choice. But this is really a matter of growth and wisdom, knowing which opportunities suit our personality and goals. We may pick the wrong wave or realize that something isn't quite right with the ride that we learn and grow in the process of choosing.

The waves keep coming. Which ones will you choose to ride?

Rajni Gopra (Asst. Prof. School of Management)

Scope of Engineering

Engineers apply the principles of science and mathematics to develop economical solutions to technical problems. Their work is the link between scientific discoveries and the commercial applications that meet societal and consumer needs. Many engineers develop new products. During the process, they consider several factors. For example, in developing an industrial robot, engineers specify the functional requirements precisely, design and test the robot's components, integrate the components to produce the final design, and evaluate the design's overall effectiveness, cost, reliability, and safety. This process applies to the development of many different products, such as chemicals, computers, power plants, helicopters, and toys. In design and development, many engineers work in testing, producing, and maintaining. These engineers supervise production in factories, determine the causes of a component's failure, and test manufactured products to maintain quality. They also estimate the time and cost required to complete projects. Supervisory engineers are responsible for major components of entire projects. Engineers use computers extensively to produce and analyze designs, to simulate and test new machines, structures, or system operations, to generate specifications for parts, to monitor the quality of products, and to control the efficiency of processes. Manufacturing, which involves the creation of high-performance materials and components by integrating systems and individuals, also is introducing entirely new principles to the design process.

Aras Govindan (Bt Sect., B.Tech. CS)

Quiz - II

SPEED (MS) AND ACCURACY (MS) ARE THE ESSENCE

Part I: General Questions

1. Which state of India's Railways begins every year?
(a) Himachal Pradesh (b) Punjab (c) Haryana (d) Uttar Pradesh

2. From which year the World Military Games started?
(a) 1985 (b) 1984 (c) 2000 (d) 2002

3. In February of which year did the 2nd session of Azadi Ka Amrit Mahotsav take place?
(a) 1987 (b) 1988 (c) 1989 (d) 1990

4. Who was the first Black actor to act in a film?
(a) T. T. Suresh Babu (b) N. T. Rama Rao (c) N. T. Rama Rao (d) N. T. Rama Rao

5. Who is the first person to be elected as the President of India?
(a) B. R. Ambedkar (b) Dr. B. R. Ambedkar (c) Dr. B. R. Ambedkar (d) Dr. B. R. Ambedkar

Part II: Word Power

Directions (Q.6-9). Choose the option that comes in your mind. In some cases, choose "No change necessary".

6. Everyone except the principal supported the meeting.
(a) except (b) despite (c) opposite (d) No change necessary

7. Because the teacher had assigned a research paper, the student should have gone to the library instead of watching television.
(a) because (b) instead (c) of going (d) No change necessary

8. They were surprised when he said that he was going to the office.
(a) surprisingly (b) obviously (c) No change necessary (d) No change necessary

9. One of the boys in the class was the one that had already finished the book that was assigned.
(a) was (b) was (c) was (d) No change necessary

Directions (Q.10-15). Read the following and select the best response.

10. Find the missing number in the following sequence.
2, 11, 34, 102, ...
(a) 1 (b) 3 (c) 5 (d) 4

11. Aman has a choice of a white, yellow, or blue shirt. He also may select a tie to go with it. How many different outfits can he make if he has 1 tie?
(a) 3 (b) 4 (c) 5 (d) 6

12. One map, the distance between two cities is 4.5 inches. If each represents 25 miles, how far, in miles, is it between the two cities in the actual world?
(a) 116 (b) 112 (c) 115 (d) 110

13. A motor home rents for \$20 per week plus \$4.25 per mile. Find the total cost for a 4-week trip of 800 miles for a family of 4.
(a) \$340.00 (b) \$535.00 (c) \$220.00 (d) \$245.00

14. Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group?
(a) Baking (b) Boiling (c) Steaming (d) Frying

15. How many such pairs of letters are there in the word EXPERIMENT each of which have many letters between them in the word than in the English alphabet?
(a) 1 (b) 2 (c) 3 (d) 4

16. In a certain code 'SPENDS' is written as 'KJQF'. How is 'CHILD' is written in the same code?
(a) MS (b) NP (c) OQ (d) QR

17. In any building, the 1200 square foot area has Company A's Gym and Company B's Gym. What is the number of square feet of total floor space?
(a) 1200 (b) 2400 (c) 3600 (d) 4800

18. A computer printer produces 17400 lines in a given day. If the printer is in operation for 7 hrs during the day, how many lines does it print per minute?
(a) 270 (b) 2700 (c) 27000 (d) 270000

Part III: Reasoning

21. Fill in the grid with digits so that each number that every row, every column, and every 3x3 box accommodate the digits 1-9 without repeating a digit.

22. The type of number is the most important to focus.
1. Teacher includes
2. Logical reasoning questions
3. Three squared
4. Nothing with cube
5. A regular polygon with interior and exterior angles equal.
6. Area of small perimeter
7. An American government polygon
8. Powerful numbers found in many places
9. This one is instead up after
10. A little average.

Part IV: Brain Teaser

23. Fill in the grid with digits so that each number that every row, every column, and every 3x3 box accommodate the digits 1-9 without repeating a digit.

Part V: Multiple Choice

24. Comment

25. Fill in the grid with digits so that each number that every row, every column, and every 3x3 box accommodate the digits 1-9 without repeating a digit.

Message from the Director's Desk...

Dear Students!
Heartiest Congratulations for choosing Hardayal Technical Campus for shaping your career. We welcome you into our fold with great pride observing your keen interest to pursue technical education. It is a matter of great pleasure that you are interested to pursue technical education which is to enhance student potential for achievement in their chosen field of profession. With the above features in mind, our faculty and staff has been dedicated to the progression of quality training courses and programmes, and to mentor our students towards their future success. We are committed to provide individual attention, world class quality education and take care of character building.

In our endeavour to maintain the eminence by advancing all aspects of technical education with the collateral arts and science. We are developing partnerships with institutions outside India which involves joint programmes planning and sharing of information resources and materials. linkage of communities of practice and interest groups across border.

We will ensure adding value beyond the curriculum and achieve building connectivity around the nation. Our aim is to have continuous pursuit for excellence through Quality education tapped from national and international resources. By programmed evaluation of know ledge accumulated, with strong ethical and moral background, we are confident that our continuous review and renewal system will lead to quality output.

In order to realize our dream described above, I would like you to:

- Think Big—Ahead of boundaries.
- Dream—Beyond reality.
- Pursue Passion—Forget past, don't bother future.
- Process Passion—Progress relentlessly.
- Be smart—Not bookworming.
- Have a role model—Walk in his/her foot steps.
- Do it now—Don't leave for tomorrow.
- Success the failure—Don't fail the success.

I am sure, with clear visions, well defined mission, correctly crafted objectives, every goal can be achieved but sustainable and maintainable.

Dr. K. K. Mahuya Director Academics

May God Bless You!
