Dear Students!

Success is not destination but a journey, also a combination of knowledge, smart work and right decision at the right time with right attitude. Knowledge is a power and competitiveness is increasing day by day at global level in the present business scenario, the fittest will survive. Thus, to remain competitive in this era of rapid global change, there is an urgent need of a new set of professional who are well equipped with latest armory of cutting edge technology and state of art techniques, tools and skills to face the new challenges before global competitors. We believe in churning out world class leaders instead of local professionals who can successfully contribute compatible and competitive services to the society both nationally and internationally.

All aspirants look forward for a lucrative position in corporate sectors which help them elevate their prestige. Outbound Learning, Industrial Visits, Industry Interface, Competitions are unique experiences worth its potent and position in progressive pattern. HARDAYAL TECHNICAL CAMPUS is committed to place its students in PD Classes which is an advantage of our curriculum and we try to assist students in every way so that they fit in the high standards of the competitive business environment.

As you are well aware that in view of our formulated action plan we have already started to arrange many presentations, guest lectures by eminent corporate persons from industry, Industrial/ Educational Visits and Out Bound Learning Programme, Curricular and Extra Curricular activities, regular Personality Development Programs and Clubs of various disciplines are constituted to ensure constructive participation of the students to enable them comfortable in taking decisions, to become an effective professional and to develop the complete dynamic personality to face, conquer the challenges faced by the industrial world.

For greater all round technical and management proficiency, it is both necessary and desirable to supplement the knowledge base through programs to reinforce communication and various other special skills to the students. Besides, to meet the challenges posed by rapidly expanding horizon of knowledge, it is academically prudent to forge strategic alliances with leaders of academic and corporate world as the campus strides with the following:

VISION-

Hardayal Technical Campus has been built on the values of sound knowledge and experienced guidance. With a vision to become India's leading educational Campus, we aim to nurture tomorrow's technical leaders to build a prosperous future for those who have vested their trust in us.

MISSION-

We dare our students to dream big, not to set limits on the possibilities, if we are to instill this spirit in our students, how can we demand anything less from ourselves? We provide individual attention, world class quality education and take care of character building.

OUR QUALITY POLICY-

We aim at continuous pursuit for excellence through Quality education tapped from national and international resources with modular approach to channelize education by:-

- Programmed evaluation of knowledge accumulated.
- Producing graduates with strong ethical and moral background.
- Continuous review and renewal of quality system leading to quality output.

OUR AIMS-

- To maintain the eminence.
- To rank among the top institutions in the country in the quality of its students.
- To advance all aspects of Education and its relations with the collateral arts and sciences.
- To develop partnership with institutions and industries outside India that involve joint program, planning and sharing of information resources and materials, linkage of communities of practice and interest groups across the borders.
- To rigor activities secure hundred percent students placement.
- To add value beyond the curriculum.

Now what you have to do at your end is be punctual, regular in attending classes and other activities conducted by the campus and make sincere efforts by doing smart study (80-20 % Rule) to get through in exams and also be devoted, dedicated towards self imposed discipline and **constructive attitude** because "when the rain falls, all the birds fly for the shelter but eagle alone goes above the clouds, problem is common to all **but attitude is different**". So go ahead and achieve the ultimate goal  
May God bless you.

**Prof H.L Verma**  
Director CRC (T&P)

## PRACTICE MAKES A MAN PERFECT

Practice is the constant use of one's intellectual and aesthetic abilities. Perfection refers to achieving excellence is a particular subject. Proper planning and practice promotes perfect performance. Practice is the quality that prepares one for all other qualities. Practice enables one to avoid errors that were done previously. Practice begins in the cradle and ends in the grave. Rights from childhood, man practices various activities. Perfection is necessary in every sphere of life which includes arts, medicine, law, defense, etc. Perfection makes art and literature survive the tests of time. A person cannot be perfect in every sphere of life. But repeated practice lessons one's deficiencies. One should also learn from one's failures. Failures are the stepping stones to success. Practice enables a person to reach the heights of success. It makes a man perfect.

**Ankit Yadav**  
MBA, 1 Year

## PREVENTION IS BETTER THAN CURE

Prevention is the shield which saves mankind from many disasters, chaos and destruction. We must measure every step we take. A cure is a blessing, but preventions are better than cure. A wise act of a cautious mind can stop us from stepping into something wrong or dangerous. Prevention makes one escape completely from dangers and difficulties. Cure is a solution for the suffering which has already engulfed him. Man can prevent himself from falling into bad habits. Preventions can be achieved by planning ahead. Vaccination has prevented many diseases from afflicting human beings. Likewise, preventive measures taken in other areas also lessen the intensity of suffering. One can lead a happy and healthy life by combining one's judgmental and preventive abilities.

MBA, 1 Year

## DEMOCRACY

Democracy is a government of the people, for the people, by the people. Democracy has been in existence since ancient times, but it reached its golden era in the twentieth century. India is the largest democracy in the world. The Indian political system is a multiparty system. Most political parties today are only interested in coming to power. We enjoy ever right in theory but in practice. Illiteracy, poverty, inequality, casteism, violence, corruption, terrorism, etc. are posing problems for democracy in India. For democracy to be a success, all these need to be changed. The talented youth of today should be politically educated so that they can become effective leaders of tomorrow.

**Vivek Upadhyay**  
MBA, 1 Year

## DRUG ADDICTION

By acting on the consumer's body, certain drugs can change the physical as well as the psychological behavior of the consumer or the person. Drugs may have a negative as well as positive effect on the body of a person. When they are used in a regulated way, it cures a number of diseases, but when a person consumes them just to relax his mind; it becomes dangerous to his health and psychology. Addiction to any drug happens in a gradual manner. Once addicted, one has to put much effort to get rid of his addictions. Sedatives, stimulants, narcotics, hallucinogens, nicotine, etc. are the various kinds of drugs. Basically, social and psychology causes are responsible for drug addiction. To eradicate harmful drugs from our society we must have tough laws and at the same time, extend our moral support to the addicted people in getting them free from drugs.

**Ravikant Sharma**  
MBA, 1 Year

## PARAGRAPH ON AGRICULTURE

Agriculture is the most important sector in our country. Agriculture and allied sectors contribute nearly 18 percent of the Gross Domestic Product (GDP). Agricultural production has two components primarily, food grains and non-food grains. Food crops and non-food crops have shown tremendous increase in production since independence. After the Green Revolution, India achieved self-sufficiency in food grain production. The Green Revolution generated self-confidence in our agricultural capability. The first Five Year Plan accorded the highest priority to increase agricultural production. The share of agriculture in total employment was 52.06 percent in 2004-05. Efforts were made to improve the facilities in all respects and make the system more approachable, accessible and farmer's friendly. The Indian countryside needs a revolutionary transformation to march on the path of an Evergreen Revolution in agriculture.

**Ranjit Singh**  
MBA, 1 Year

## ROLE OF YOUTH

Youth is the valuable human resources of every country. The young people constitute about forty percent of the total population of India. During the freedom struggle, the youth of our country played a significant role. There is a generation gap between the old and the young. They should be guided and their emergencies should be utilized for the progress of the nation. Today India is burdened with many social, political and economic problems. The youth can come forward and check them, and work for the betterment of the nation. The youth can also provide relief to the afflicted persons during natural calamities. By performing a constructive role, the youth can make India prosperous in every field.

MBA, 1 Year

## THE TEST THAT OPENS DOORS AROUND THE WORLD

IELTS or 'International English Language Testing System' is an international standardized test of English language proficiency.

IELTS has two versions of the test:

1. The Academic Version is intended for those who want to enroll in universities and other institutions of higher education and for professionals such as medical doctors and nurses who want to study or practice in an English-speaking country.
2. The General Version is intended for those planning to undertake non-academic training or to gain work experience, or for immigration purposes. It is generally acknowledged that the reading and writing tests for the Academic Version are more difficult than those for the General Training Version, due to the differences in the level of intellectual and academic rigor between the two versions.

Reading, Writing and Listening sections are completed in one day. Depending on test centre, the Speaking test may be offered on the same day or up to a week before or after the other parts.

IELTS provides a profile of a candidate's ability to use English. Candidates receive scores on a Band Scale from 1 to 9. A score is reported for each module of the test. The individual module scores are then averaged and rounded to produce an Overall Band Score according to a confidential band score conversion table. Overall Band Scores and Listening and Reading scores are reported in whole and half Bands; Writing and Speaking Band Scores are reported in whole Bands only. **Dr Amit Parashar**

Asso Prof, School of Engg

## ROLE OF CAMPUS MAGAZINE IN STUDENT'S LIFE

A campus magazine is an image of the college life. It reflects the educational, literary and clubs activities going on in the college. It covers the important events conducted in the campus during the coverage period of the magazine. It also contains news about the campus.

A lay man can ascertain the status and stature of the education of a campus just by going through the campus magazine. The magazine is a periodical publication. It shows the activities of students in the field of their curricular, co-curricular and extra-curricular enthusiasm. That is why every student looks forward for its publication and contributes to it. The magazine is received by the students very eagerly.

The magazine contribution and concern of the student towards the magazine enhances the knowledge, inculcates creativity and delivers competence. The magazine grooms and gears the students to enable them to face the future fantastically. Students can benefit a lot by the friendly guidance of the college magazine. The young writers and poets get an excellent opportunity for displaying their talent. Essays, short stories, poems, informative articles, etc. are written by students and are published in the magazine. This cultivates a fine literary taste among the students.

In this way the campus magazine helps boost new talent. The young budding authors and poets are encouraged a lot when their works are published in the magazine. Obviously, it is a definite pleasure to see one's work published in the campus magazine. The class and club representatives render or submit the reports on the various activities like dramas, music, quiz, debates and seminars. Finally the editorial board collects, collates and compiles appropriately under different heads of the magazine to have the suitable coverage in the magazine. The college magazine is a comprehensive literature as it contains valuable articles from the campus teachers and from the students. A campus magazine plays an important role in the life of campus students.

Thus I would like to stimulate the students of **HARDAYAL TECHNICAL CAMPUS** to contribute more and more in the formulation of **CampBUZZ** so that they can have an upper hand over the students of other colleges in the environment. As it is among the few colleges of the world that a monthly is published with two competitions; quiz and article writing; participating in them is like availing the opportunity regularly knocking at your door. It is only at **Hardayal Technical Campus** that an old saying, "an opportunity seldom knocks at your door", has failed.

**Ratna Pandey**

Chief Editor - "CampBUZZ"

## सारा देश हमारा

केरल से कारगिल घाटी तक

गुवाहाटी से चीपाटी तक

सारा देश हमारा

जीना हो तो मरना सीखो

गूँज उठे यह नारा—

केरल से कारगिल घाटी तक

सारा देश हमारा,

लगता है ताजे लहू पर जमी हुई है काई

लगता है फिर बटक गई है भारत की तरुणाई  
काई पीरो ओ रणपीरो!

ओ जननी की भाग्य लकीरों

बलिदानों का पुण्य मुहूरत आता नहीं दुबारा

जीना हो तो मरना सीखो गूँज उठे यह नारा—

केरल से कारगिल घाटी तक

सारा देश हमारा,

घायल अपना ताजमहल है, घायल गंगा मेघा

दूट रहे हैं तूफानों में नैया और खवैया

तुम नैया के घाल बदल दो

तूफानों की घाल बदल दो

हर आँधी का उत्तर हो तुम, तुमने नहीं विचारा

जीना हो तो मरना सीखो गूँज उठे यह नारा—

केरल से कारगिल घाटी तक

सारा देश हमारा,

कही तुम्हें पर्वत लड़वा दे, कही लड़ा दे पानी

भाषा के नारों में गुप्त है, मत की मीठी बानी

आग लगा दो इन नारों में

इज्जत आ गई बाजारों में

कब जायेंगे सोये सूरज कब होगा उजियारा

जीना हो तो मरना सीखो, गूँज उठे यह नारा

केरल से कारगिल घाटी तक

सारा देश हमारा

संकट अपना बाल सखा है, इसको कंठ लगाओ

क्यों बैठे हो न्यारे—न्यारे मिल कर बोझ उठाओ

भाग्य भरोसा कायरता है

कर्मठ देश कहीं मरता है ?

सोचो तुमने इतने दिन में कितनी बार हुंकारा

जीना हो तो मरना सीखो गूँज उठे यह नारा

केरल से कारगिल घाटी तक

सारा देश हमारा

## ACTIVITIES ALIVE

## GOOD MANNERS

Manner refers to a person's way of behaving towards others. Good manners imply polite social behavior. They are the means for developing social relations. Good manners should be cultivated early in life. Children learn manners from their parents, teachers, elders, friends and others. All round development of a child is possible only if he is groomed in good manners. Good mannered people are respected and appreciated everywhere. A man without manners remains savage. Courtesy and politeness is the key to good manners. Good manners demand respect for the feelings and opinions of other people. One should be considerate towards elders, the sick and the handicapped. Good manners enrich the overall personality of an individual.

**Brijesh Kumar Singh**  
MBA, 1 Year

## DOWRY SYSTEM

The dowry system is a great curse on our society. It is as old as the institution of marriage. In an era, where science, technology and industry have made rapid progress and mankind claims to be more civilized dowry has become a part and parcel of marriage. The dowry system is the root cause of female infanticide and female feticide. Marriages based on dowry are unhappy marriages. The cases of dowry deaths are on the rise in spite of the laws enacted by the government. Many social reformers have tried to eradicate this evil practice but in vain. Girls should become financially independent. They should not feel weak or helpless. The youth should come forward to fight this evil.

**Kuldeep Singh**  
MBA, 1 Year

## TIME MANAGEMENT

Time Management is basically planning and dividing one's time in a constructive way. We have a limited span of life, and hence, we should utilize it as best as possible. Time is more precious than money' because money lost in business or otherwise can be regained. But time once lost, can never come back. We all grow in time, live in time, and ultimately, perish in time. We must realize the value of time in order to be successful, prosperous and happy. Time should never be wasted in gossiping, roaming aimlessly or worrying about the past and the future. We should live in the present. There are no tomorrows and yesterdays; it is today which is important in man's life.

**Vivek Kumar**  
MBA, 1 Year

## POLLUTION

The word, 'pollution' means to make dirty. Pollution causes imbalance in the environment. Environmental pollution is a serious problem. Nearly 35 percent of India's total land area is subject to serious environmental pollution. Industrialization has led to urbanization, which has added to the pollution problem. Air pollution is the most dangerous form of pollution. Land and water pollution have worsened the situation. Pollution causes several types of harmful diseases. We must control pollution for our survival.

**Jay Yadav**  
MBA, 1 Year

## LIFE IN A BIG CITY

The human civilization underwent many changes and development with the passage of time. In course of time, cities became the major centers of livelihood. A city has large population compared to a town and a village. Life is a full of activities in a big city. It is a centre of education, trade and industry, recreation etc. Life in a big city starts early in the morning. School children, office-workers, and others fill the roads, bus-stops and the vehicles. The market places get crowded with people. Life in the city has certain charms. The factories and the industrial centers give employment to thousands of people. Those who work hard in cities rise in life. There are certain disadvantages too. Here, neighbors live like strangers. Everyone finds himself in hurry and worry. The atmosphere is polluted. There is competition in every sphere. However, cities add to the economic development of a nation.

**Mukesh Kr. Verma**  
MBA, 1 Year

## FASHION

Fashion is a popular style of clothes, hair, manners, habits, etc. at a particular time or place. Clothes mark out a man's status. The craze for fashion is great among young people all over the world. Fashion has spread in all the spheres of our life. Fashion designing it's a lucrative profession. Fashion parades and shows are held to exhibit the latest dresses. Dresses are designed to fit in every occasion of life. Students generally try to copy fashions from films. Many students spend a lot of money and time on fashion. They take to drinking and smoking in the name of fashion. They fail to realize that these adversely affect their health. Parties and meetings have become a part of fashion in the modern period. However, fashion instills confidence in the mind of the youngsters. Fashion should be promoted to enrich our life, not degrade it.
